REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach an air bag module, as defined in claim 1, including a structural gas channel connected to a canister side wall by a venting system proximate to a port in the side wall, the venting system having a plug connected to an air bag cushion by a plug pulling system, wherein deployment of the cushion causes the plug pulling system to pull the plug into the port to prevent gas from venting therethrough.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Remarks

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. JP 05330395, FR 2757465 and US 2003/0155756 teach air bag vent valve controlled by a tether attached to the air bag.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter C. English whose telephone number is 703-308-1377. The examiner can normally be reached on Monday through Thursday (7:00 AM - 5:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul N. Dickson can be reached on 703-308-2089. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
